EDUCATION

National School of Applied Sciences, ENSA SAFI
Engineering in Data and Artificial Intelligence

SAFI, MOROCCO
Graduation Date: Jun 2026

SUMMARY

Ahmed Magha – Final-year Master's student in Data and Artificial Intelligence, with a strong interest in data engineering and machine learning. Skilled in data processing, pipeline design, and the use of AI tools. Curious, rigorous, and autonomous, I adapt quickly to new technologies and aim to harness data to create smart and efficient solutions.

EDUCATION

ENSA *Sep 2025 - Present*
• Third year in Data Science and Artificial Intelligence

ENSA *Sep 2024 - Jun 2025*
• Second year in Data Science and Artificial Intelligence

ENSA *Sep 2023 - Jun 2024*
• First year of Computer Engineering and Artificial Intelligence

ENSA *Sep 2021 - Jun 2023*
• Two years of preparatory studies

Lycée les Champions SAFI *Sep 2020 - Jun 2021*
• High school diploma (baccalaureate) in Mathematical Sciences

PROJECT EXPERIENCE

ENSA **SAFI**
Real estate agency management application *Mar 2022 - May 2023*
• With the help of a team of students, we developed a C-language application to manage a real estate agency.

ENSA **SAFI**
Simulation of discrete random variables *Jan 2024 - Feb 2024*
• Using Python, I explored the theoretical foundations of discrete random variables in stochastic probability.

ENSA **SAFI**
Website for the upcoming AFCON 2025 in Morocco *Mar 2024 - Jun 2024*
• With my team, we are building a website for the upcoming 2025 Africa Cup of Nations using various frontend and backend programming languages.

BC-skills company	SAFI
<i>Virtual Assistant (BC-Skills BOT)</i>	<i>Jul 2024 - Aug 2024</i>
• Development of an intelligent chatbot built from scratch. Integration of deep learning models to enhance interactions and enrich the user experience.	
OCP Group	SAFI
<i>Agricultural decision support tool</i>	<i>Aug 2024 - Sep 2024</i>
• Analysis of soil data and plant images. Personalized recommendations for fertilization and disease management.	
Personal Project	SAFI
<i>Intelligent COVID detection tool</i>	<i>Jan 2025 - Feb 2025</i>
• This project aims to detect COVID-19 from lung scan images using a deep learning model. It automatically identifies signs of infection to assist healthcare professionals in diagnosis.	
Personal Project	SAFI
<i>IoT-based medical monitoring tool</i>	<i>Mar 2025 - May 2025</i>
• Development of a real-time monitoring system via a heart sensor and connected transmission. Analysis via Machine Learning.	
Personal Project	SAFI
<i>AI-based portfolio optimization dashboard</i>	<i>May 2025 - Jul 2025</i>
• QuantCompass is a web dashboard using AI to optimize investment portfolios, analyze risks, and forecast performance. It offers an interactive interface to input investment preferences and visualize optimal allocations and key indicators.	
Attijariwafa bank Group	CASABLANCA
<i>Modeling a cheque data extraction system</i>	<i>Jul 2025 - Sep 2025</i>
• In-house development of a solution for automatic extraction of sensitive data from complex cheques. Finetuning and evaluation of existing OCR models and multi-modal LLMs. Implementation of quantization techniques to optimize performance and reduce inference time on mid-resource devices.	

SKILLS

Hard Skills:

- Programming languages: Java, Python, C/C++, Matlab, APEX (intermediate), R
- Statistical analysis: SPSS (familiarity)
- Web development: HTML, CSS, JavaScript (intermediate), PHP
- Machine Learning: TensorFlow, PyTorch, supervised/unsupervised learning, NLP, computer vision
- Databases: MySQL, PL/SQL
- Operating systems: Windows, Linux
- Networks: Packet Tracer, Wireshark (intermediate)
- CRM/Cloud: Salesforce, Azure (familiarity)

Soft Skills:

- Collaborative teamwork and communication
 - Complex problem-solving
 - Creativity and innovation
-

CERTIFICATIONS

- Associate Data Scientist (Datacamp)
 - CISCO Networking Basics
 - Sololearn Python
 - Sololearn C/C++
 - Sololearn MySQL
-

LEADERSHIP EXPERIENCE

Geeks Club SAFI

- Python workshops and Blockchain bootcamp

Social Club SAFI

- Social engagement for one year

GDSC (Google Developers Student Club) SAFI

- Salesforce bootcamp, acquisition of fundamental knowledge
